

Calgary Breastfeeding Matters Group Foundation

MEMBERSHIP FORM

We represent a number of health care professionals and other interested persons who endeavour to promote, protect and support breastfeeding in our communities. We provide opportunities for breastfeeding advocates to network for mutual support and share current information in the field of lactation through educational and networking sessions. CBMGF also identifies and prioritizes local and/or national issues/concerns regarding breastfeeding and initiates appropriate action for those issues of highest priority.

We invite you to join us. The membership year runs from January to December. Membership is \$30. We encourage all interested members to participate in the Working Group where decisions are made regarding the business of CBMGF. Meetings are held 3 times a year. We offer up to two education sessions per year. These are typically held on Saturday morning. Education sessions are free to members. Other persons not requiring CERPs, but who are interested in promoting/supporting breastfeeding are invited to attend at a **nominal** charge.

For more information on CBMGF see our website at www.cbmfg.ca
